[REDACTED] Site Compliance Manager
[REDACTED] Plant Manager

On July 27, 2011, EPA Region III inspectors Christine Convery and Magda Rodriguez-Hunt conducted an unannounced inspection at [REDACTED] located at [REDACTED]

[REDACTED] The inspection was initiated in response to multiple reports of damage to White Pine and Norway Spruce following application of DuPont® Imprelis (EPA Reg. No. 352-793). The purpose of the inspection was to collect a physical sample of DuPont's® Aminocyclopyrachlor Technical (EPA Reg. No. 352-782) and documentary evidence related to the production, sale and distribution of DuPont® Aminocyclopyrachlor Technical produced at the site.

Inspectors Convery and Rodriguez-Hunt arrived at the [REDACTED] security building at approximately 8:25 am, on July 27, 2011. Prior to meeting with [REDACTED] representatives, we signed-in and had our belongings examined by the security guard on duty. We were then required to watch a brief safety video after which we signed a form acknowledging the training was provided. The security guard advised the inspectors that the training was effective for one year. Through the safety training, it appeared that the facility consisted of the following areas/buildings: production, laboratory, administration, shipping/receiving, hazardous waste storage and bulk tanks. The buildings were numbered [REDACTED]. We then left the security building and proceeded to an adjacent administrative building where the main office for this [REDACTED] facility is located.

Upon arriving at the offices of [REDACTED], Inspector Rodriguez-Hunt presented her federal inspector credential to [REDACTED], Site Compliance Manager. Inspector Convery presented her EPA identification and informed [REDACTED] that she would be assisting with the investigation. Inspector Rodriguez issued a completed Notice of Inspection (NOI) to [REDACTED] that indicated the purpose of the investigation. The original copy of the NOI was provided to [REDACTED] then escorted the inspectors to a conference room that served as the meeting room throughout the course of the
